# WILSON'S NOTE ON **MEXICAN SITUATION**

After Conference, Announcement Is Made It Will Be Given to Public To-Morrow.

CARRIES A WARNING.

Carranza, Villa and Others Told to End Anarchy or U. S. Will Take a Hand.

WASHINGTON, June 1.-President Wilson's statement on the Mexican until to-morrow. Inasmuch as he the Mexican factions before it is widely circulated he decided to defer making the text public to-day as in-

The President had the note completed, however, and submitted it to the Cabinet. The paper states in efreet that choos and anarchy in Mexico must be ended by the rival chieftains or this country will be compelled to take a hand in saving the starving population and restoring or-

The situation in the Southern Republic will be characterized as intolerable and the military factional officials will be called on immediately to reconcile their differences and select a representative Provisional Gov-

It can be stated upon official authority that the note will not fix any time limit within which they must There will be nothing in the nature of an ultimatum and there will be no threats but the document's entire tone will be of one of absolute firmness, leaving nothing to be guessed at as to what this Government will do if the factions do not end their revolutionary activity.

It is also certain that there will b o recognition of any of the present "Provisional Governments." What the Administration desires is a "new deal" South of the Rio Grande; one that will end the present state of an-

archy.

The President hopes that under the statement of facts, as made public in the note, the Mexican leaders them-selves will realize that they can not longer be permitted to rob and pil-lage in the name of freedom.

### CHINA MERCHANTS IN MANUFACTURES

Accepting Hospitalities Graciously, but Making it Clear They Mean Business.

RECEIVED AT CITY HALL.

Party Consists of 22 Distinguished Representative Chinese Business Men.

Twenty-two distinguished Chinese business men, the Honorary Commercial Commission of the Republic of China, arrived in New York today and were welcomed at the City Hall by Acting Mayor McAneny. Though a succession of entertainments covering the eight days of their stay has been arranged for them, the Chinese made it perfectly clear that theirs is no junketing trip. They are here for business.

Hardly had they settled in rooms engaged for them by the Mayor's Committee at the Hotel Belmont when they began making engagements with American manufacturers. By their special request a representative of a great gunpowder and dynamite concern was waiting for them when they came out from breakfast in the private dining room. While four or five men were talking with him, others were asking Willian C. Breed and S. C. Mead of the Mayor's committee to arrange for an inspection of a rubber goods manufacturing plant this afternoon on the adjournment of the luncheon of the American Manufacturers' Export Association at the Hotel Biltmore

The Hon. Cheng Hsun Chang, member of the Chinese National Council merchant and wine maker of Chefoo. chairman of the commission, speaks no English. He is the only member of the commission who has a queue the Rio Grande, was proposed to-day and wears the silk blouse and trousers of Old China. His Chinese speeches are translated into English by David Z. T. Yui, a Harvard graduate, who s aks English of a purity and precision which most Americans

"You will not ask me," said Mr.
Yui, "if you please, what the commission thinks of your city. The city is
far too large and too wonderful for
one to discuss it after being here for a few minutes. But of the programme which your committee has arranged for us there is much to be said. It is

for us there is much to be said. It is admirable. We are especially pleased to find that a large part of each day is left open for us to arrange meetings with your men of commerce. That is what we are here for."

The commission came over from Philadelphia last night accompanied by C. E. Yandell, of the Beattle Chamber of Commerce; J. B. Densmore, Acting Secretary of Labor; E. T. Williams, of the State Department; E. C. Porter, of the Department of Commerce, and Warren Manley, of the Chamber of Commerce of the United States. Shipment of Food From That

Country to U. S. Forbidden.

WASHINGTON, June 1 .- An emsargo against exports of arms to Mexico and against imports of foodstuffs to the United States, as a step in relieving famine conditions below to President Wilson by Miss Mabel Boardman of the Executive Committee of the American Red Cross.

Reports to the Red Cross and the State Department indicate that in the presence of famine foodstuffs are the presence of famine foodstuffs are being shipped out of Moxico to the United States, Cuba and elsewhere, and in the United States are being sold cheaper than over the Mexican line. As an experiment, Red Cross food supplies will be sent to American Consuls, who will form responsible local committees to distribute them. The dispatch of two carloads of supplies to Montersy will test that method.

method.

The Carranza agency has announced the receipt of the following cablegram from Vera Cruz:

"Carranza, through Secretary of War and Marine, has instructed all authorities in the territory controlled by the Constitutionalists that they would be supplied cereals and provisions whenever it was necessary for the people to have them. Six thousand tons of corn were to-day purchased by the Government.

"The Governor of Queretaro wired first chief that his state has sufficient supplies to feed all southern part of Mexico until next crop. The Governor of Guanajuata wires they have a small profit
